I am a graduate, achieving a first and I am looking to start my career as a software developer. As demonstrated by my past work history and my voluntary work, I am trustworthy, reliable and can work independently or as part of a team. I have had a lot of experience with an array of technology and especially enjoy experimenting with a raspberry pi. I am keen and enthusiastic to learn new things and I enjoy making websites and programmes for friends.

Technical Knowledge

Languages, scripts & frameworks

Experience

Junior Developer, Service Line June 2020 – Present (Temporary contract)

I develop both in a team and individually, custom internal software, websites and mobile applications achieving an increased SLA for other departments. Throughout my work I test, and debug code written by me or another developer. I also help to run the general IT side including server management and as IT support either remotely or in-house. Throughout my day I must communicate IT procedures, changes or technical information to general users and the Managing Director. Responsibilities include:

- Managing projects under supervision
- Fixing and updating custom legacy software
- Full development lifecycle from the proposal to the finished artefact

Customer Service Assistant and Delivery Driver, Waitrose and Partners, September 2011 – February 2015 and March 2018 – June 2020

Often working by myself on the road representing Waitrose and keeping a good image through my efficient driving and time management. In store I would often achieve the highest pick rate. Responsibilities include:

- Working as a team to ensure deliveries go out on time
- Resolving problems on the road and ensuring an excellent customer experience

IT Technician, Service Line, May 2019 – September 2019

I provided front line IT support over the phone and in person, developing a greater depth of knowledge in general IT and networking by investigating, problem solving and fixing issues. Responsibilities include:

- Created and ran automatic reports and wrote manual SQL reports.
- Solved field engineer's IT issues predominantly android based
- Making sure the security of the network was maintained

(Equity Release) Customer Service Advisor, LV=, February 2015 – September 2016

Risk management was dramatically increased due to the sharp eye and intuitive thinking by me, saving the company from potential losses. Teaching myself most of the product and underwriting criteria allowed for prompt and reliable, achieving service level targets consistently and being nominated for the 'Fountain of Knowledge' award by my colleagues. Responsibilities include:

- Inbound calls from the sales and servicing line, providing highly accurate mortgage calculations and immediate underwriting
- Authorising payments up to £250,000 and quality checking colleagues work
- Complex case investigations and managing high value new business

Studio Assistant, Picture This... Photographers, September 2010 – October 2013

Directly mentored from an award-winning photographer in aspect of photography and design with my photos being sold online and designs used in company marketing. Responsibilities include:

- I helped run aspects of the business from setting up websites to making bookings over the phone and in person; face to face selling at exhibitions
- Editing photographs both on a PC and in the dark room from negatives

Volunteering

General helper, PHAB, February 2018-April 2019

I help set up the hall, take money, completing the attendance register and assisting disabled members in activities.

Cub Scout Leader (Akela), Scout Association, September 2008 – July 2014

I set up this brand new group from scratch in a disadvantaged area, overseeing the managing of each meeting. I was responsible for 30 children and 4 adults and I was first response trained and involved in organising events such as camping trips which included risk assessments.

Achievements

Adobe Photoshop Certified Associate, amateur radio Licensee (and member of RSGB), learnt Cello, Piano and Drums and a Udemy course in Cyber Security
